HarassMap Under the Hood

Map Data will be extracted as a JSON object from HarassMap then utilized to send warning notifications when 'walking' into danger zones with frequent cases.

What's Next? (Kanban)

The image shows a digital Kanban board with three columns: **To do**, **In progress**, and **Done**. The **To do** column has two sections: **Backlog** and **Ready**. The **Ready** section contains five cards:

- Audio & Video Recording** (FY, 4 days)
- [Intent] Emergency Contacts** (FY, 4 days)
- Database** (SR, 4 days)
- Call Police** (BS, 4 days)
- Whatsapp, live location** (FY, 4 days)

The **In progress** column contains four cards:

- HarassMap** (K, 4 days)
- UI Prototype** (FY, 4 days)

The **Done** column is currently empty.

A modal window is open for the **Call Police** card in the **In progress** column. The modal details are as follows:

- Description:** Upon button release, utilize the telephony services to call the police.
- Attachments:** None listed.
- Card type:** Default
- Priority:** high
- Due date:** 2021-01-20
- Assigned to:** BS Basel Shabana
